Portable Concentrators

Product: Portable Oxygen Concentrators

Experience Freedom and Safety with Our Advanced Oxygen Solutions

At Respocare, we are proud to offer the best in portable oxygen concentrator technology, designed to enhance the quality of life for individuals with respiratory conditions. Our range of portable oxygen concentrators includes renowned models like the Inogen G5 and I2GO, along with the trusted Devilbiss brand.

Key Features:

1. Lightweight and Portable:

Our concentrators are designed with your mobility in mind. They are lightweight, compact, and easy to carry, ensuring you can maintain an active lifestyle without being weighed down.

2. Smart Technology:

Powered by intelligent technology, our portable oxygen concentrators deliver oxygen therapy with precision and efficiency. This smart technology adapts to your breathing patterns, providing the right amount of oxygen when you need it, ensuring both patient comfort and safety.

3. Battery Life:

Our concentrators come with impressive battery life, ranging from 4 to 12 hours. The actual battery life depends on the selected flow rate and usage. Whether you need oxygen support for a short outing or an extended journey, our devices have you covered.

4. Versatile Flow Rates:

Respocare offers a range of flow rates to accommodate your specific oxygen needs. Whether you require 4L or 6L per minute, our concentrators provide the flexibility to tailor your therapy to your requirements.

At Respocare, we understand the importance of oxygen therapy in maintaining your health and independence. Our Portable Oxygen Concentrators represent the pinnacle of medical technology, providing you with the freedom to live life on your terms.

Experience the future of respiratory care with Respocare's Portable Oxygen Concentrators. Discover the freedom, comfort, and safety that our devices bring to your life.

Oxygen Cylinders

Product: Oxygen Cylinders

Reliable Oxygen Supply When You Need It

At Respocare, we understand the critical importance of a consistent and reliable oxygen supply, especially for patients with respiratory conditions. Our range of Oxygen Cylinders includes all MD (Medical) and ME (Medical Emergency) standard cylinders, providing a trusted and convenient source of oxygen therapy.

Key Features:

1. DOT Standard Compliance:

Our Oxygen Cylinders are manufactured to meet the stringent standards set by the Department of Transportation (DOT). This compliance ensures the highest level of safety and performance, offering peace of mind to both patients and healthcare providers.

2. Refillable:

Respocare takes pride in managing the entire oxygen supply process. We refill oxygen cylinders in-house, ensuring the utmost care, precision, and quality control. This means you can trust that every cylinder is properly filled and ready to support your oxygen therapy needs.

3. Ideal Backup:

Our Oxygen Cylinders serve as the perfect backup solution for patients who rely on a continuous oxygen supply. When reliability is paramount, our cylinders offer a dependable source of oxygen during emergencies, power outages, or when transitioning between oxygen delivery methods.

B

Benefits:

- **Safety and Reliability:** Our cylinders are manufactured and refilled with a strong emphasis on safety and reliability, ensuring that you receive consistent oxygen therapy when it matters most.
- **Convenience:** With our in-house refill service, you can enjoy the convenience of readily available oxygen cylinders, reducing the hassle and uncertainty associated with external suppliers.
- **Peace of Mind:** Whether you're a patient or a healthcare provider, knowing that you have access to backup oxygen cylinders can provide valuable peace of mind in emergency situations.
- **Versatile Use:** Our Oxygen Cylinders are suitable for various applications, including home oxygen therapy, healthcare facilities, and emergency preparedness.

At Respocare, we are committed to ensuring that you have access to a reliable oxygen supply. Our Oxygen Cylinders, manufactured to DOT standards and refilled with precision, are a testament to that commitment. Trust Respocare to provide the oxygen solutions you need, when you need them.

Experience the peace of mind that comes with having a dependable backup oxygen source. Choose Respocare's Oxygen Cylinders for consistent, reliable oxygen therapy support.

Step Down Facilities

Homecare

Oxygen

Welcome to our step-Down facilities Forum , where we redefine the standards of post-acute care through cutting-edge oxygen therapy solutions. Our unwavering commitment to your well-being drives us to offer a seamless transition from acute care to comfortable recovery environments.

The ZD120 Vital Signs monitor

The ZD120 vital signs monitor is a beautiful touch screen monitor that is light and very comfortable to handle. The ZD120 monitor function is particularly simple and efficient. It records all the standard parameters for clinical and home care settings, the ZD120 monitor has made its mark for its accuracy, durability and cost effectiveness

Aerobika

OPEP Device

Facilitating Easier Breathing by Expelling Excessive Mucus: Introducing the Aerobika Oscillating Positive Expiratory Pressure Therapy System (OPEP)

In certain respiratory conditions like COPD, cystic fibrosis, chronic bronchitis, and bronchiectasis, the overproduction of mucus poses a significant challenge when attempting to clear it through coughing.

When mucus accumulates in the lungs, it not only hampers breathing but also increases the risk of secondary infections. To address this issue, our website proudly presents the revolutionary Aerobika Oscillating Positive Expiratory Pressure Therapy System (OPEP). This cutting-edge technology aids in the effective loosening and elimination of mucus build-up in the lungs.

Accessories

Accessories for Complete Oxygen Therapy

At Respocare, we understand that oxygen therapy is not just about the main devices; it's also about the little things that make a big difference. Our range of Oxygen Therapy Accessories is designed to enhance your overall therapy experience, ensuring comfort, convenience, and peace of mind.

Key Accessories:

- 1. Humidifier Bottles:** Our humidifier bottles are an essential addition to your oxygen therapy setup. They help add moisture to the dry oxygen flow, preventing discomfort and irritation in your respiratory passages. Breathe easier and comfortably with our high-quality humidifier bottles.
- 2. Starter Packs:** Respocare offers comprehensive starter packs for your convenience. These packs include all the essential items you need to begin your oxygen therapy journey seamlessly. From tubing to connectors, our starter packs have you covered.
- 3. Cannulas:** Oxygen cannulas are designed for patient comfort. Our selection includes various styles and sizes to accommodate your specific needs. These lightweight and flexible cannulas ensure a comfortable fit, allowing you to move freely during therapy.
- 4. Zopec Battery:** The Zopec Battery is a reliable power source for your portable oxygen concentrators. It provides an extra layer of confidence, ensuring that your oxygen therapy device stays powered when you're on the go. No need to worry about running out of battery during important outings.
- 5. Carrying Cases:** Our carrying cases are designed to protect and transport your portable oxygen concentrator conveniently. These cases are durable, lightweight, and come in various styles to suit your preferences.
- 6. Filters and Accessories:** Maintain the performance and longevity of your oxygen therapy equipment with our filters and accessories. We offer replacement filters and other parts to ensure your devices function optimally.

Advanced Homecare Oxygen Solution Program (AHOSP): A Revolution in Oxygen Therapy

At Respocare, we're dedicated to pioneering solutions that significantly enhance the quality of life for individuals requiring oxygen therapy. With this mission at our core, we've developed the Advanced Homecare Oxygen Solution Program (AHOSP), an innovative approach designed to offer comprehensive oxygen therapy management that aligns with the needs of modern healthcare facilities and their patients.

Respocare: Pioneering Uncharted Waters with AHOSP

Why: Inspiring a Shift in Oxygen Therapy

At the heart of Respocare's ethos lies our foundational "Why": to significantly enhance the quality of life for individuals requiring oxygen therapy. Our commitment extends beyond providing cutting-edge equipment; we are dedicated to revolutionizing the patient and provider experience in oxygen therapy. By sharing our wealth of knowledge, we aim to empower the healthcare industry, ensuring that every stakeholder, from healthcare professionals to patients, benefits from our comprehensive insights and innovations. This commitment underlines our belief that knowledge is power – a principle that drives us to enhance industry standards and patient outcomes universally.
